OBJECTIVE	Find a position that is challenging, rewarding and provides an opportunity to expand my knowledge and abilities.

QUALIFICATIONS

Over 10 years in software development on PHP (Symfony, TYPO3, Wordpress), C++ (Qt) and Visual Basic (6 and. NET), with experience in other technologies.

EXPERIENCE

Swiss Panama Group, Corp.   January 2011 — June 2012
Solutions Architect

In Encuentra24.com I made the statistical application, mobile and SmartTV version, many improvements in usability, a application in C++ with Qt for printing Freshbooks invoices in POS printers. I was responsible for managing 4 VPS servers on GoGrid and 2 ads servers with OpenX in a redundant environment. I also made a content module in TYPO3 for SEO, I made many Symfony plugins for SPAM, backend tools, email tools with SendGrid, integration with payment systems and the design for the user account, and the publish ads pages.

Geo Solutions Consulting   November 2006 — December 2011
Software Engineer

I was responsible for the handling, storage and backup of data (images, maps, orthophotos, applications, etc.). I was in charge of the technical requirements, installation, maintenance and customer support of the Google Earth Enterprise system for the Ministry of Agriculture of Panama, I was trained by Google's Engineer Michael Evanoff (mevanoff@google.com). I conducted technical training and system presentation to the Ministry of Education, Institute of Water and Sewerage, Environmental Authority, and Secretary of the Presidency of Panama.

Besides this, the company had a branch called Gtt Security which has representation for Latin America of a Automated License Plate Recognition (ALPR) system by Pips Technology now a 3M company where I made several installations, in Panama National Police, in Guatemala for the Municipality of Guatemala, in Ecuador for the Guayaquil Transit Police and in Bogota for the Mayoralty of Bogota. I conducted technical training and sales presentations for the Panama Police and the Anti-Drug Police of Guatemala.

GFK Marketing Group   August 2005 — September 2006
System Administrator

In GFK Marketing Group now IPSOS Panama, a market research company where I was responsible for the development of forms for data capture in CATI platform, a IBM software. I was certified in this platform by SPSS Mexico, my responsibility as system administrator included the installation, support and maintenance of the system. I also made a training and system installation in Guatemala.

Diseño de Soluciones e.u.   March 2003 — February 2005
Software Developer

In Diseno de Soluciones I worked as developer of Visual Basic 6 and Visual C++ in software for civil engineering DC-CAD (www.dccad.com.co) and DL-NET (www.dlnet.co) a software for design of structural steel shapes used by the most important sellers of steel in Colombia (Paz del Rio, Almasa, Ferrasa), I was responsible for taking customer requirements for software development, make videos of presentations software and website design, I made several modules in DLL for the software and systems for anti-piracy.
